

## SMP Tech, Inc. Invites you to Meet the Experts Medical Product Validation

OPS A La Carte will provide product guidelines for safety and reliability testing. The presentation will show how you need both regulatory and reliability testing to ensure a safe and reliable product, as well as how to integrate two types of tests together to cover all areas without duplicating efforts.

Integrated Compliance Engineering

Integrated Compliance Engineering will explain the basic steps every manufacturer must follow in developing a new medical product, as well as strategies for rigorous and efficient evaluation of a new design using risk-based testing techniques while promoting safety and effectiveness.

SMP Tech will provide various tips and rules of thumb with respect to design of medical products.

The September 22, 2010 "Meet the Experts" Medical Product Validation Forum will include guidelines for safety and reliability testing and explain the basic steps every manufacturer must follow in developing a new medical product, including good practices with respect to the FDA approval process.

### TIME AND PLACE

10:30 AM to 12:30 PM

Wednesday, September 22, 2010
